PROFILE

Accomplished Tech Lead and Software Engineer specializing in architecting highly scalable, cloud-native enterprise platforms, including multi-tenant SaaS CRMs and CMS architectures. As a key contributor at Devnullx, spearheaded technical engagements with ISRO, IN-SPACe, and NITI Aayog to deliver critical national infrastructure. Expert in resolving distributed system bottlenecks, engineering secure microservices, and managing end-to-end AWS infrastructure. Adept at driving innovation through AI/ML and Blockchain to build fault-tolerant, production-ready systems for massive scale.

SKILLS

TECHNICAL SKILLS

- **Languages & Backend Frameworks:** Python (Django/DRF, **FastAPI**, Flask), Node.js, Express.js, TypeScript/JavaScript.
- **Frontend:** Next.js, React, Tailwind CSS, DaisyUI.
- **Cloud, DevOps & Infrastructure:** AWS (EC2, Lambda, S3, RDS), **Terraform (IaC)**, **Kubernetes (K8s)**, Docker, CI/CD Pipelines (GitHub Actions).
- **Databases & Caching:** PostgreSQL, MongoDB, **Redis (Caching)**, **Vector Databases (Pinecone/Milvus - for AI apps)**.
- **System Architecture:** **Event-Driven Architecture**, Microservices, Distributed Systems, SaaS Development, RESTful APIs, GraphQL.
- **AI & Data Engineering:** LLM Integration (**RAG Pipeline**, OpenAI API, LangChain), Data Pipelines, Geospatial Data Management.

EXPERIENCE

Tech Lead – Full-Stack & Solutions Architecture, *Digikraft Social* ✎

02/2026 – Present
Raipur

- **Strategic Leadership:** Leading full-stack engineering initiatives for SaaS, ERP, and CRM platforms; managing the entire product lifecycle from requirements gathering to final deployment.
- **Technical Architecture & AI Integration:** Architecting scalable solutions using **Django, Next.js, and Node.js**, while integrating advanced **AI workflows (LLMs, Automation)** to enhance business-focused interactions and operational intelligence.
- **Cloud & DevOps Engineering:** Orchestrating high-performance infrastructure on **AWS & Hostinger**, ensuring 99.9% uptime via optimized CI/CD pipelines and microservices architecture.
- **Client & Stakeholder Management:** Acting as the primary technical point of contact; translating complex business requirements into high-impact software solutions while mentoring the engineering team.
- **Tech Stack:** Python, Django (DRF), Next.js, MERN, AWS, PostgreSQL, Redis, Docker, AI/ML Pipelines.

Research Software Engineer, *DevNullX Technologies Pvt. Ltd.* ✎

06/2025 – Present
SIIC - IIT Kanpur

- **Geospatial Engineering:** Architected and scaled complex **GIS data pipelines** to integrate large-scale datasets into **NITI Aayog's NDAP** ✎ using AWS cloud services.
- **Full-Stack & Visualization:** Developed end-to-end backend services and customized **Grafana dashboards** for real-time monitoring and data-driven insights.
- **Collaborative Development:** Worked within an agile team to design, document, and deploy mission-critical applications for **ISRO-NRSC & IN-SPACe** ✎, ensuring high reliability and performance.
- **Technical Leadership:** Spearheaded technical presentations and architectural documentation for high-level leadership, influencing the adoption of modernized fleet management workflows.

Full-Stack Consultant & Solutions Architect, Freelancer Full-Stack Development: Architected and deployed 8+ web and mobile solutions using Next.js, React, Django (DRF), and Dart, delivering seamless cross-platform performance. API & Cloud Infrastructure: Built scalable REST APIs; managed end-to-end cloud deployments and database optimization for production-ready reliability. AI Integration: Engineered AI-driven features and automated workflows using Python, enhancing application intelligence and user interaction. Technical Debugging: Resolved complex backend bottlenecks and frontend UI bugs, ensuring 99.9% system stability and optimal code health across all deliverables.	01/2025 – 06/2025 Remote
Software Engineering Intern (Technical Intern), Social Seller Technologies Full-Stack Development: Architected 7+ scalable e-commerce and CMS platforms using the MERN stack (MongoDB, Express, React, Node.js) and Next.js, delivering high-performance, SSR/SSG-optimized web applications. AI-Driven Automation: Integrated VAPI AI and Make.com workflows via secure webhooks, automating complex business operations and voice-based interactions to drive operational efficiency. Backend & Data Engineering: Engineered robust backend services and PostgreSQL database schemas, implementing real-time analytical dashboards and fault-tolerant data pipelines for enterprise-grade production reliability.	09/2024 – 12/2024 Raipur

PROJECTS

Grocery Store Website - Developed a comprehensive multi-vendor platform featuring real-time inventory management, automated bulk ordering, and an integrated AI-driven customer assistant. Tech Stack: Next.js, Node.js, MongoDB, Express. Impact: Engineered a production-ready shopping experience for Kirana essentials, optimizing supply-chain workflows and backend scalability.	
HackHubHero SaaS Consultancy Platform - Developed a comprehensive B2B agency platform featuring a custom, secure Admin Dashboard for real-time management of projects, blogs, and client inquiries. Impact: Engineered a highly scalable, AI-ready architecture with 99.9% uptime, streamlining end-to-end product delivery and client operations.	
OwlEye OSINT Security Scanner - Built a OSINT platform aggregating 22+ security modules for real-time domain reconnaissance and threat analysis. Impact: Streamlined fragmented security workflows into a single, high-performance interface for researchers.	

EDUCATION

MCA, Shri Rawatpura Sarkar University Relevant Coursework: AI/ML, Big Data Analytics, Full-Stack Development, Cloud Computing, DBMS, Computer Networks.	2025 – Present
BCA (Cloud Computing & Information Security), ITM University Relevant Coursework: Data Structures & Algorithms, OOP, Cloud Computing, Cybersecurity, Blockchain, Django	2022 – 2025

ACHIEVEMENTS & CERTIFICATIONS

Attand The AWS Blogathon	12/01/2024
Quectel Global Webinar	12/01/2024
NISM-SEBI National Financial Literacy Quiz	
Scaler Academy – MAANG Engineer Masterclass	
Great Learning - Blockchain Foundations	
SocialSeller - Technical Internship Certificate
